

Purchase Order Terms and Conditions

1. An acknowledgement of this purchase order needs to be received in two (2) business days. If supplier is unable to meet Due Date a promise date needs to be provided.
2. C&K Plastics reserves the right to change the Due Date, without penalty. Please do not ship earlier than Due Date unless otherwise authorized.
3. The Supplier is responsible to obtain any necessary documents, specification, drawings, etc to produce parts per the revision levels indicated by this Purchase Order.
4. Supplier assumes responsibility to meet the Due Date and maintain acceptable product quality. Failure to meet this criteria and purchase order terms and conditions will jeopardize the purchase order.
5. All delivery dates represented on this document are dock dates to C&K Plastics. Please plan transit time accordingly. Late shipments must be communicated. All shipments will be measured for on-time delivery. Failure to meet acceptable on-time delivery requirements may result in cancellation of purchase order and/or removal from approved supplier list.
6. All price changes need to be submitted, in writing, for review and approval prior to shipment.
7. Any shipments with more or less than the quantity ordered need to be communicated and approved prior to shipment.
8. All shipments must be packed appropriately according to industry standards in order to prevent damage. If shipments are not packaged accordingly, C&K Plastics, reserves the right to refuse delivery and return at shipper's expense. It is the supplier's responsibility to ensure all documentation i.e. Bill of Lading, Pro-forma invoices etc. are complete and accurate and comply with buyer's routing instructions. Otherwise C&K Plastics reserves the right to charge the difference in freight charges to the supplier.
9. No substitution of any items are permitted unless approved, in writing.
10. All materials supplied to C&K Plastics must comply with REACH, ROHS, Conflict Minerals requirements and any other statutory regulations that may apply.
11. Suppliers are responsible for maintaining all material certifications, test results and/or quality certifications.
12. Suppliers agree to allow C&K Plastics to audit/evaluate them.
